She states traffic eastbound on Riverside Ave cannot make a left turn on to Whitehall Rd due to construction vehicles and materials in the road. She stated they are only parking there for convenience to themselves and need to find an alternate place to park, carry their equipment with them and place their materials elsewhere. I spoke with the crew who stated they were finishing up and were about to pack up. I was able to navigate the area without issues and found no traffic obstruction as I drove around the vehicles. The turn in question Mrs Bumgardner was concerned about is a difficult turn without trucks parked there. I suggested this be a no left turn to Mrs Bumgardner who disagreed stating there would be many unsatisfied citizens with that alternative. Then I also suggested this maybe be a temporary no left turn until construction was concluded.

I will contact 311 for traffic engineering to see if a solution can be resolved.
