She said she then left her vehicle parked there until about 2 pm, which is when she left in the vehicle. After she had just left, she said she noticed that the rear door alarm was beeping and it's at that time that she discovered that the rear door was open and the backpack was gone, which contained her laptop. She said that she may have left the vehicle unlocked at both places and so it could have been stolen from the vehicle at either place. This report was taken by phone.
