While patrolling this area I observed the subject walking West from the area near the back side of the business(Pick Your Part) at this location. Finding it suspicious that this person was walking around late at night in dark coveralls, finding the fence was cut, and a history of thefts from this business I stopped to speak with the subject. Due to the area being known for violent crimes and the clothing the subject was wearing, I patted him down for weapons. During the pat-down I felt a pair of pliers in the subjects pocket. The pliers were wire stripping/cutting pliers. Because the fence would have been cut with a similar tool I asked the subject if he knew anything about it. The subject stated that he had not been on the railroad tracks, but came from an area nearby and did not know anything about the fence being cut. The subject was checked for warrants and came back negative.
