On 1/5/18 I was able to view the video footage from the recovery scene on River Canyon Road, the footage was viewed for over 2 hours and the vehicle was not seen pulling onto the lot. The system the church has was not set up with the correct dates and times and this made it very difficulty to establish a time line in reference to the initial theft. The system also would have black out times on the cameras at the end of every hour which could have allowed the suspect to park the vehicle on the lot and never be seen on camera. The church system did not have any cameras that pointed in the area of the lot the vehicle was left. As of this time no new evidence has been developed on a suspect, the case will remain suspended.
